

Seagrove Beach Clinic Grand Re-Opening & Ribbon Cutting

photos & story by Steve Barber

A celebratory Grand Re-Opening and Ribbon Cutting event for Dr. Bawa & Associates was held on October 23 at their newly renovated office in Seagrove Beach. The ribbon cutting event was spearheaded by Walton Area Chamber of Commerce and featured tours of the facility, amazing food and beverages, and a meet and greet with the doctors, staff, and representatives from leading aesthetic companies.

Laurel Blackerby of Dr. Bawa & Associates stated about the new facility, "We are excited for the community to see our newly renovated Seagrove Beach Clinic. Our Seagrove Beach location was the original location for Dr. Bawa & Associates established in 2004 by Dr. Nitin Bawa, M.D. and his wife, Shruti Bawa. We now have three offices including a beautiful medspa, five providers, and growing strong."

The Seagrove Beach location is dedicated to specific services such as internal medicine, bio-identical hormones, weight loss, nutrition, IV therapy, botox, fillers, peels and more.
